

MS Premiere 300P

Mordaunt-Short

300P loudspeaker stands

Good foundations for bookshelf or stand mounted speakers are essential for good sound. Slim and stylish these quality stands will compliment your home and your listening experience.

The 300P not only provides a solid base for your speakers, allowing the drivers energy to move only air and not the cabinet, but also reduces unsightly cable installations. A specially designed hollow stem allows speaker cable to be discreetly passed to your speaker terminals.
